Tech Afrique: Let the Beat Drop

If the body is a temple
And the mind has a mold,
The effects of life determine
if beauty or pain unfolds.

If mold is rich anything will grow.
The body, the mind, the spirit, the soul.
Mold is a fungus, beneficial to its environment,
But a lot forces your immune system into retirement.

Too much of some things
some never enough,
Life takes tolls and taxes
Then says times are tough.

Healing is the lock
Tech Afrique has the key,
Your joints have the answer
Shake your butt and move your feet.

At Tech Afrique music is top billing
We support and empower those who are willing
We are the BIPOC creators' biggest fans,
To help you excel in electronic music is the plan.

Like David defeated Goliath we'll fight for you
You think no one has your back, but we do
If you can move your body, you can release
It's time to awaken your inner beast.

A record label, a festival, and lots of art
Joining our company was very smart
Our partners and sponsors love word of mouth,
Check out our films and exhibits – like Afro House.

To bring diverse cultures together is the role
An equitable and regenerative future is the goal.
We celebrate BIPOC voices every day,
Consider this a sincere welcome to Tech Afrique!
